

Project Title:
Centennial Parklands
Rehabilitation Project

Client:
Enviropacific

Category:
Project Management

Location:
Paddington
NSW 2021

Project Description

CARAS were engaged by Enviropacific to provide tender estimates and tender support for the rehabilitation of existing wet lands ponds in Centennial Park Sydney. The restoration program of the wetlands aimed to minimise the impact of stormwater pollution, upgrade several of the ponds and improve water quality. CARAS ensured that Enviropacific identified any risks when submitting the tender and created a methodology that accommodated the risk profile.

Services Provided

- Detailed cost estimate of the works
- Negotiation of contract conditions
- Identification of commercial opportunities in the market
- Analysis of productivity
