

Project Description

CARAS were engaged to develop tender pricing schedules and a Pre-Tender Estimate (PTE) for a civil and remediation package of works on a project which is a State Significant Development. CARAS used its extensive knowledge of the civil and remediation industry to develop the likely current market price for completing the works based on the present climate of the industry.

Project Title:
Confidential

Client:
Confidential

Category:
Cost Analysis

Location:
Sydney,
NSW

Services Provided

1. Independent advice on Civil and Remediation Constructability
2. Tender Pricing Schedule
3. Pre-Tender Estimate

Project Outcome

The PTE outcome allowed the client to finalise their budget for the project, project cash flow estimates for the works to be undertaken, and provided a basis for assessing and comparing tenders.
