

Lin Ningthoujam

Linthoingambi (Lin) Ningthoujam has been working in the Environmental, Sustainability, Health and Safety industry for over 13 years. With 9 years of core experience in carbon accounting, sustainability reporting and environmental management, Lin continuously demonstrates a proactivity in engaging with various business functions for compliance.

Lin also has a broad experience in conducting facility inspections and audits to assess and promote a safe and healthy workplace. A calculating and energetic individual with a dedicated approach to challenges and the ability to deliver projects in different environments.

Lin is an enthusiastic professional who has gained valuable experience working in the ESHS industry in a variety of areas, including: Research based areas, Environmental consultancy, Waste management and implementation of Environmental Management System.

Lin brings to CARAS a range of several international experiences: a professional background beginning in Delhi, India, through environmental roles in South America, till the WHSE Advisor role in Sydney.

Lin joined CARAS to provide services of specialist and expert advice for workplace health and safety, and environmental compliances for clients and suppliers.

Lin's dedicated work and strong commitment allow her to provide a service that promotes stakeholder's consciousness with regards to environmental and WH&S awareness.
