

# Mohammad Badran

Mohammad Badran is an experienced quantity surveyor having worked on projects throughout Europe and the Middle East for over 13 years. He is a result driven, self-motivated and resourceful individual with experience in effectively managing all costs relating to building and civil engineering projects.

Mohammad has a proven track record of minimizing the costs of a project and enhancing value for money while still achieving the required standards and quality. He possesses excellent foresight and the ability to plan ahead when working on construction projects.

Mohammad joined CARAS to provide clients with expert advice and client-side cost management services for civil, infrastructure, construction and remediation projects. He can communicate effectively with developers/contractors and he is an asset to any employer who respects loyalty and responsibility.
