Nimmi is a dedicated professional who has gained invaluable experience working on a wide variety of projects. He has contributed to major infrastructure projects for civil and water infrastructure development, both nationally and internationally. Nimmi has demonstrated versatility in the administration of design, tender documentation, superintendency and compliance management.

Nimmi's adaptability and professional ability has allowed him to contribute to the success of international projects in Saudi Arabia, the UAE, Honk Kong and Australia. His open-minded personality and liaison skills facilitate the engagement of all stakeholders on major infrastructure projects. He has performed in a leadership role for large organisations such as AECOM, MWH Global, Hyder Consulting and National Water Company of Saudi Arabia.

Nimmi joined CARAS to provide clients with expert advice and client-side project management services for civil, infrastructure, construction and remediation projects.
