Zac.Othman@caras.com.au

Zac Othman is a highly skilled project manager and senior geotechnical engineer with over 8 years' applied expertise across the lifecycle of transport infrastructure projects, land development, and industry projects. He is a Chartered Professional Engineer and has extensive experience in leading geotechnical and multi-disciplinary projects in the private and public sectors.

Zac has a pragmatic project management approach, playing a key role in the successful delivery of a multitude of projects from the planning and scoping, to site assessment, analysis, design, reporting, specification, and construction.

Zac has a strong track record in geotechnical investigation and design, earthworks, landslide risk assessment, slope stabilisation, acid sulfate soils, dams, contaminated land, groundwater, road pavement design and rail formation design. His portfolio of experience also includes construction phase support and supervision for major projects in a variety of sectors.
